Skills

- **Languages**: C, C++, Java
- **Frameworks**: HTML and CSS, Tailwind CSS
- **Tools/Platforms**: MySQL, Google Cloud, Git / GitHub
- **Soft Skills**: Problem-Solving, Project Management, Team Player, Adaptability

Projects

AI-Powered Process Analyzer (Kali Linux) | Github Jun 2025 - Mar 2025

- **Developed** a **Python-based system monitoring tool** on **Kali Linux** to track **CPU, memory, and I/O usage** in **real-time** for continuous **system performance monitoring**.
- **Implemented anomaly detection** using **Isolation Forest** and **resource forecasting** with **Prophet** to identify **abnormal system behavior** and predict **future resource usage**.
- **Deployed** the tool as an **autonomous background service** with a **keyword-based threat detection module** that **identified and automatically terminated suspicious processes**, ensuring **system security and integrity**.

Tech Stacks Used: Python, Kali Linux, Isolation Forest, Prophet, System Service

Sports Pulse – AI-Powered Sports News Aggregator: Github Feb 2025 – Apr 2025

- **Built** a **real-time sports news platform** using **Node.js** and **Express.js**, aggregating live updates from the **News API** with a **clean and responsive user interface**.
- **Implemented secure backend architecture** with **environment-based API key management (.env)** and **dynamic filtering** to efficiently manage and display relevant sports news content.
- **Integrated** an **AI-driven chatbot** powered by **Google Gemini** to **answer user queries, summarize news updates, and deliver personalized sports insights**, improving overall **platform interactivity and user engagement**.

Tech Stacks Used: Node.js, Express, News API, Gemini AI, HTML/CSS/JS

Fake Review Detector: Github Feb 2025 – May 2025

- **Designed an NLP-based review analysis pipeline that processed raw product review text and transformed it into meaningful features using TF-IDF Vectorization.**
- **Built a fraud detection model with Logistic Regression and incorporated sentiment scoring through VADER Sentiment Analyzer to distinguish genuine reviews from deceptive ones.**
- **Deployed the solution as an interactive web application using Flask, allowing users to submit reviews and receive instant authenticity predictions**

Tech Stacks Used: Python, Flask, Logistic Regression, TF-IDF, VADER

Achievements

- **LeetCode 100 Days Badge: Leetcode** Nov 2024
  Completed the 100 Days of LeetCode challenge, demonstrating persistence and consistent practice in data structures and algorithms.

- Top 10 Finalist, ARENA (Web-A-Thon) Jun 2024

Extracurricular

- **Extracurricular Involvement and Leadership Roles:** Jan2025
  Head of Design and Event Management – Wissen:
  - Led and supervised multiple college events, managing end-to-end planning and execution.

- Demonstrated strong leadership, coordination, and team-handling skills.

CERTIFICATES

- OCI Networking Professional | Oracle — Oct 2025
- OCI Foundations Associate | Oracle — Sep 2025
- Cloud computing fundamentals | IBM — Sep 2025
- Fundamentals of Network Communication | (Coursera-University of Colorado) — Jul 2025
- TCP/IP and Advanced Topics | (Coursera-University Of Colorado) — Oct 2024
- The Bits and Bytes of Computer Networking | (Coursera-Google) — May 2024

EDUCATION

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.4*** — *Aug 2023 – Present*
- **Seventh Day Adventist PU College** — Bangalore, Karnataka
  Intermediate; ***Percentage: 68%*** — *Apr 2021 - Feb 2023*
- **Meerut Public School** — Meerut, UP
  Matriculation; ***Percentage: 79%*** — *Apr 2020 - Mar 2021*
